PROFILE

A recent Software Engineering graduate with strong expertise in machine learning and deep learning. Skilled in Python, TensorFlow, and data preprocessing, with practical experience in building and training deep learning models. Passionate about applying AI to real-world challenges such as automation, prediction, and intelligent decision-making. Also familiar with web development technologies for integrating ML models into interactive applications. Actively seeking an entry-level role in Machine Learning or Artificial Intelligence to apply and further enhance my technical and analytical skills.

LANGUAGE

- English(B1)
- Urdu(C1)

WORK EXPERIENCE

- **Deep Learning Project – Plant Disease Detection**
  University – Final Year Project
  October 2024 – May 2025

- **Fake News Detection System**
  Remote Self-initiated

- **Freelance - Machine learning engineer**
  Self-initiated

- **Freelance - Web Developer**
  Self-Initiated

- **Portfolio Website**
  Designed and developed a personal website using HTML, CSS, and JavaScript to showcase ML and web projects.

EDUCATION

IQRA UNIVERSITY
Bachelor's Degree in Software Engineering
2021-2025

SUPERIOR COLLEGE
F.SC Pre-Engineering 2018-2020

TOOLS & SKILLS

- **Programming Languages**:
  Python

- **Machine Learning**:
  Scikit-learn, TensorFlow, OpenCV, NumPy, Pandas, Data preprocessing

- **Data Science Tools:**
  Jupyter notebook, Google Collab

- **Web Development:**
  HTML, CSS, JavaScript, Flask

- **Version Control & Tools:**
  Git, GitHub, Google Colab and VS Code

HOBBIES

Cricket | Coding | Writing | Reading Books

CERTIFICATES:

HP LIFE Certificate - AI for Beginners
HP LIFE Certificate -Data Science & Analytics
